ABOUT MANUFACTURING INDONESIA 2023

Welcome to the recap of the recent Manufacturing Indonesia exhibition, where cutting-edge technologies, industry trends, and innovative solutions converged to showcase the future of manufacturing. This event provided a platform for industry leaders, professionals, and enthusiasts to explore the latest advancements and network with like-minded individuals.

EXHIBITOR EXCLAMATIONS: VOICES FROM THE SHOWFLOOR!

“

Takahiko Kukutsu
FAID Division Head PT MITSUBISHI ELECTRIC INDONESIA

Manufacturing Indonesia this year not only met our expectations but also exceeded them. This is particularly significant for us because exhibiting here allows us to understand our customers' needs and demands. The exhibition has become the most crowded one we have had so far, indicating that Manufacturing Indonesia is the foremost exhibition for all individuals in the manufacturing industrial sector. Therefore, we are very pleased to have had this opportunity with Manufacturing Indonesia this year.

”

“

Alfajri Abubakar
OEM Service Head PT SKF INDUSTRIAL INDONESIA

This is the first time for us to join the Manufacturing Indonesia exhibition this year, and this exhibition will be an important event for us in the future because of the high interest from visitors to learn more about the latest products in the manufacturing industry to support their reliability improvement program with SKF products. This year's exhibition becomes a milestone for SKF to participate in next year's exhibition, to gain many lead opportunities, opening up opportunities to increase sales. The turnout of visitors is exceptionally high, and the enthusiasm is also exceptional!

”

“

Farra Siska Wijayanti
Marketing Executive PT HIOKI ELECTRIC INDONESIA

We are very impressed with the Manufacturing Indonesia exhibition; it is an extraordinary event that serves as the perfect platform for us, as stakeholders in the manufacturing industry, to network with high-quality visitors. It has truly been an outstanding experience for us to participate in this exhibition. Thanks also to Pamerindo Indonesia for organizing this exhibition well; we hope for continued success in the future!

VISITOR VOICES: INSIGHTS FROM THE SHOWFLOOR!

“

Egi Gumilar
ASTRA HONDA MOTOR

Setiap tahun selalu datang ke pameran ini untuk ketemu langsung dengan berbagai relasi di industri manufaktur. Melalui pameran ini juga kami sesama pelaku di industri manufaktur bisa mempererat silaturahmi dan bisa saling update informasi terbaru, mulai dari mesin-mesin baru, handling tools, dan cutting tools.

Pameran tahun ini lebih meriah lebih banyak pengunjungnya, dan semakin banyak peserta pamerannya di tahun ini. Pameran Manufacturing Indonesia merupakan event yang baik, yang sangat membantu kami untuk mengetahui update informasi teknologi dan mesin-mesin terbaru di industri.

”

“

Jamal
Toyota Motor Manufacturing Indonesia

Saya baru pertama kali datang lagi ke pameran ini setelah pandemi. Pameran ini sangat bagus, pilihan brand-nya juga sangat banyak dan saya merasa tidak cukup satu hari untuk keliling area pameran, karena banyak sekali teknologi terbaru dan mesin-mesin terbaru yang ingin kami lihat dari berbagai supplier yang mungkin bisa kita gunakan di perusahaan kami.

Pengunjungnya juga sangat ramai. Sukses terus kedepannya untuk pameran Manufacturing Indonesia!

”

“

Michael
IRC INOAC Indonesia

Saya pengunjung setia dari pameran Manufacturing Indonesia yang pasti data setiap tahun. Saya selalu excited untuk datang ke pameran ini untuk melihat berbagai teknologi terbaru. Pameran ini sangat baik, yang menyediakan fasilitas bagi kami yang para pekerja di bidang manufaktur yang sedang memiliki kebutuhan untuk mencari mesin-mesin yang menunjang bagi perusahaan kami, seperti teknologi manufacturing execution system dan inspection camera.

Di pameran ini banyak perusahaan-perusahaan yang menawarkan produk-produk yang sedang kami cari, baik dari perusahaan lokal maupun internasional.

SEMINAR SERIES

WEBINAR

LIVE **zoom**

**MANUFACTURING
INDONESIA**

**Quality Concept
for Excellent Manufacturing**

Thursday, 19 October 2023 | 10.00–12.00 WIB

Speaker:
Deni Supriadi
Quality Assurance Manager
PT Sany Perkasa

Moderator:
Rizky A. Ramadhan
Kaizen Consultant

SCAN TO REGISTER

The webinar on "Quality Concepts for Excellent Manufacturing" has provided valuable insights into the crucial role that quality plays in the manufacturing sector. The discussions and presentations have underscored the significance of implementing robust quality management systems to enhance efficiency, reduce waste, and ultimately contribute to overall business success.

Quality in manufacturing goes beyond meeting customer expectations; it is integral to sustainable development.

Optimize Your Business Through VSM

Thursday, 2 November 2023 | 13.30-15.00 WIB

Speaker:
Athur Hermawan
 Continuous Improvement Practitioner

Moderator:
Rizky A. Ramadhan
 Lean Manufacturing & Kaizen Expert

SCAN TO REGISTER

www.manufacturingindonesia.com | manufacturing@pamerindo.com | Manufacturing Indonesia | Manufacturing Indonesia | manufacturing.indonesia

The webinar on "Optimizing Your Business Through Value Stream Mapping (VSM)" has provided a comprehensive understanding of the power of VSM in streamlining processes, reducing waste, and enhancing overall efficiency within organizations. The insights gained from this webinar underscore the critical role that VSM can play in driving continuous improvement and operational excellence.

The principles of Value Stream Mapping align closely with several Sustainable Development Goals (SDGs), reflecting the broader impact that optimized business processes can have on societal and environmental well-being.

Reliability Maintenance
Tuesday, 14 November 2023 | 14.30-16.00 WIB

Speaker:
Jean Honeng
Senior Manager
RK-CTS Maintenance

Moderator:
Rizky A. Ramadhan
Lean Manufacturing &
Kaizen Expert

SCAN TO REGISTER

PT Yaskawa Electric Indonesia

Energy saving with i3-mechatronics

Supported by:

Topic:
"3D scanning application
how to repair it"

The seminar on "Predictive Maintenance Impacts for Energy Savings" has provided valuable insights into the transformative potential of predictive maintenance in optimizing energy usage within industrial processes. The discussions and presentations have highlighted how leveraging predictive maintenance technologies not only enhances operational efficiency but also contributes significantly to achieving global Sustainable Development Goals (SDGs).

SEMINAR SERIES DAY 04

MANUFACTURING INDONESIA

Human-Machine Collaboration: EXPLORING THE SYNERGY BETWEEN HUMANS & MACHINES IN THE WORKPLACE, DISCUSSING HOW AUTOMATION COMPLEMENTS HUMAN SKILLS.

Saturday, 9 December 2023 | 10.30 – 12.00 GMT+7
Main Stage, Pre-Function Hall D2, JIExpo Kemayoran

Mang Soo Ho
Co-founder & Vice President
of Malaysian Autonomous
Intelligence and Robotics
Association (MYAIRA)

FX Suryadi
Wakil Direktur
Bisnis Kerjasama
Politeknik ATMI

Supported by:

The seminar on "Human-Machine Collaboration: Exploring the Synergy between Humans & Machines in the Workplace" has provided profound insights into the evolving landscape of work, emphasizing the symbiotic relationship between humans and machines. The discussions and presentations have highlighted how automation, when integrated thoughtfully, complements human skills, fostering a more productive, innovative, and inclusive work environment.

ONSITE PROGRAMMES & SPECIALIZED ZONES

INDONESIA

KAIZEN CLINIC

Kaizen is a Japanese term that means "continuous improvement." It is a philosophy and methodology that has been widely adopted in the manufacturing industry, particularly in Japan but also globally, to enhance productivity, efficiency, quality, and employee engagement. Kaizen emphasizes incremental and continuous improvements in all aspects of a manufacturing operation, including processes, equipment, people, and products..

At Manufacturing Indonesia 2023, the KAIZEN CLINIC is a dedicated area where our visitors can get a FREE consultation with our Kaizen Coach to discuss ways of implementing Kaizen principles and best practices. During the session, they will engage in an intensive discussion to identify, analyze, and address issues and opportunities for improvement in their manufacturing operation. In the Kaizen Clinic, we also provide seminar sessions to share Kaizen as a learning improvement that is open to all our visitors.

This initiative not only provides practical solutions for manufacturing improvement but also aligns with global goals for sustainable development, education, and economic growth. By creating a platform for knowledge exchange and improvement discussions, the Kaizen Clinic actively contributes to shaping a more sustainable and innovative future within the manufacturing industry.

Key Components of the KAIZEN CLINIC:

Free Coaching Sessions:

- Conducted by experienced Kaizen coaches.
- Provides personalized guidance and advice.
- Focuses on implementing Kaizen principles

Seminar Sessions:

- Aimed at delivering in-depth knowledge about Kaizen.
- Covers strategies to enhance effectiveness and efficiency.
- Provides insights applicable to manufacturing operations.

 Jakarta International Expo Kemayoran

MANUFACTURING DIGITAL HUB

IN COLLABORATION WITH:

APTIKNAS
 Asosiasi Pengusaha TIK Nasional
 Indonesian ICT Business Association

MANUFACTURING DIGITAL HUB

In response to the rapidly evolving landscape of the manufacturing industry, Manufacturing Indonesia 2023 took a proactive step by establishing a Manufacturing Digital Hub. This innovative initiative aimed to showcase the latest digital technologies, solutions, and innovations developed by 12 local startups. Moreover, a series of podcasts were organized to discuss how digital innovations can propel businesses to new heights of efficiency and productivity.

 PT Global Milenia Teknologi	 PT Evolusi Kreasi Indonesia	 PT Nadara Digital Solusi	 PT Lima Dua Satu Teknologi Indonesia
 PT Mplus Solusi Perdana	 PT Global Sahabat Otomasi	 Entwo Group	 PT Tricode Inovasi Teknologi
 PT TechnoGIS Indonesia	 Kantor Kita Aplikasi Absensi	 MyAIRA	 Brady Corporation Asia Plte., Ltd.

Key Components of the Manufacturing Digital Hub:

- **Startups Showcase:**

Twelve local startups were curated to exhibit their cutting-edge digital technologies and solutions. This diverse range of innovations included smart manufacturing solutions, automation technologies, data analytics tools, and other Industry 4.0 advancements.

- **Podcast Series:**

Complementing the exhibition, a series of podcasts were conducted, featuring industry experts, entrepreneurs, and technology leaders. These discussions delved into the transformative impact of digital innovations on manufacturing processes, addressing topics such as efficiency, productivity, and sustainability.

INDOESTRI

MADE IN INDONESIA

In collaboration with the Ministry of Industry of the Republic of Indonesia, we provide a dedicated area named INDOESTRI AREA to give local startups the chance to showcase their products to the wider global manufacturing industry market.

This collaborative effort not only provides a platform for local startups but also contributes to broader global goals for sustainable development, economic growth, and innovation. It reflects a proactive approach to addressing societal challenges through meaningful partnerships and initiatives.

EXHIBITORS :

WALK THE MANUFACTURING STUDENT TOUR

With "Walk The Manufacturing Student Tour," we inspire future leaders by providing an exclusive behind-the-scenes look into the heart of innovation and technology in manufacturing. This program also collaborates with our exhibitors who are willing to share their products and the latest technology to enhance students' knowledge about the growth of the manufacturing industry in the global market.

SUSTAINABILITY ZONE

Innovate, Create, Sustain :
Leading the Way in Eco-Friendly
Manufacturing

SUSTAINABILITY ZONE

Empowering Sustainability : Our manufacturing show's dedicated Sustainability Zone takes a leap towards a greener future. Partnering with Pureve for onsite water refill stations, Ecoloop as our waste management ally, and VKTR bringing EV charging stations and EV shuttle bus - we're reshaping the industry with eco-conscious collaborations. Join us in embracing a sustainable tomorrow.

SUSTAINABILITY PARTNERS :

We collaborated with ECOLOOP at Manufacturing Indonesia 2023! Together, we're redefining sustainability by responsibly managing exhibition waste, including plastic bottles, carpets, and printed banners. They also provide on-site trash bins, and the ECOLOOP team conducts hourly rounds to pick up the trash.

This collaboration with ECOLOOP at Manufacturing Indonesia 2023 aligns with several Sustainable Development Goals (SDGs), showcasing a commitment to responsible consumption, waste reduction, and environmental sustainability.

We collaborated with PUREVE to set up a water stations, offering free refills. Encouraging our visitors to bring their own tumblers to the show, we'll quench your thirst with refreshing refills at our water station – all for free!

By integrating these sustainable practices into our event, we are also promoting a broader culture of sustainability, responsible consumption, and environmental awareness. Such initiatives play a crucial role in fostering a more sustainable and equitable future.

We collaborated with STARVO to provide the EV car charging stations at the show. Not only that, but all the visitors who charge their EV cars during the show automatically donate the amount they paid to others in need.

By integrating these elements into our event, we are also showcasing a holistic approach to sustainability that involves clean energy, poverty alleviation, climate action, and collaborative partnerships. This kind of initiative serves as a positive example of how events and businesses can align with the global agenda for sustainable development.

VKTR

We collaborated with VKTR to provide the EV shuttle bus to the Manufacturing Indonesia venue. With a maximum capacity of 30 persons, our EV Shuttle bus operates on the routes from Cikarang to JIExpo and back to Cikarang. We have successfully encouraged our visitors to use this EV shuttle bus for free. By utilizing the EV shuttle bus, we have reduced fuel costs for the 66 km one-way trip from Cikarang to our venue. Additionally, this initiative helps mitigate pollution, addressing a significant concern in Jakarta.

ABOUT THE ORGANISER

PT Pamerindo Indonesia is the leading trade fair organiser in Indonesia, established with the sole purpose of organising specialised trade exhibitions for the Indonesian market. The company has grown considerably and now regularly organises over 20 trade exhibitions in the following sectors: Beauty, Building & Construction, Electric & Power, Food & Hospitality, Laboratory, Manufacturing, Mining, Plastics & Rubber, Oil & Gas sectors. Since its inception PT Pamerindo Indonesia has organised over 200 international trade exhibitions in Jakarta, Surabaya, and Bali.

PT Pamerindo Indonesia is part of Informa Markets, a division of Informa plc. Informa Markets creates platforms for industries and specialist markets to trade, innovate and grow. Our portfolio is comprised of more than 550 international B2B events and brands in markets including Healthcare & Pharmaceuticals, Infrastructure, Construction & Real Estate, Fashion & Apparel, Hospitality, Food & Beverage, and Health & Nutrition, among others.

We provide customers and partners around the globe with opportunities to engage, experience and do business through face-to-face exhibitions, specialist digital content and actionable data solutions. As the world's leading exhibitions organiser, we bring a diverse range of specialist markets to life, unlocking opportunities and helping them to thrive 365 days of the year.
